 Boxing in association with VIP  
 Stock car racing, cycling, table tennis, archery and badminton, in association with Fluid Games

## Delivery Channels

Virtual Sports Events can be deployed across a variety of distribution channels.

## BetMan and BetMan Online

### Bet Management System

BetMan offers betting operators a turn-key transactional and POS solution accepting fixed odds bets on a variety of virtual games. Bets are placed on an attractive, user friendly POS interface. BetMan can be set up on an over the counter POS system, self-service betting terminals and on mobile tablets.

Kiron's recently launched BetMan Online provides a powerful Remote Game Server (RGS) platform for desktop and mobile devices. Our RGS offers a full managed service including all virtual games with high quality video streams and attractive betting markets. It is implemented via a seamless wallet integration with the operator's player transaction system.

### Features:

- Fully managed service.
- Effortless installation and integration.
- Attractive, user-friendly, touchscreen interface.
- Scalable from the smallest to the largest operation.
- Comprehensive reporting system with browser based administration.
- Manages operator accounts, credit controls, and betting limits.
- Recovery mechanisms protect operations against hardware and network failure.
- Configurable to accommodate your operating requirements.
