## RULES OF THE GAME

Players are given a bet receipt for each keno game played and paid for. This is the official printed game ticket with chosen game details printed on it. The player is responsible for checking that this ticket is correct at the point of sale.

The bet receipt ticket must be presented in order to claim winnings.

Malfunction of the system voids all plays and pays.

No cancellation is allowed after the draw has started or after 5 minutes post sale.

A winning ticket must be claimed within 60 days of the draw date or prizes will be forfeited.

A Jackpot, being the top prize on Pick 7-10 games, won by multiple ticket holders will be divided among the ticket holders in proportion to their amount wagered on the winning game.

There is a limit of \$100,000 on the value of the pay outs for winning numbers on a single bet.

Maximum Jackpot pay-out is limited to \$ 500,000.

# HEAD & TAILS

Play Heads & Tails to double your money on every game or quadruple your money on an Evens play.

Play for as little as \$1 per game. All you have to do is correctly predict one of three game results - "Heads" or "Tails" or "Evens".

## HEADS

Eleven or more numbers drawn in the top half of the Keno grid.

## EVENS

Ten numbers drawn in both the top half and the bottom half of the Keno grid.

## TAILS

Eleven or more numbers drawn in the bottom half of the Keno grid.

## HOW TO PLAY?

Simply predict "Heads" or "Tails" or "Evens" and tell the operator. Then say how much you want to bet per game and how many games you want to play. You don't have to play a regular game of Keno to play "Heads & Tails".

If you prefer, you can also place your bet by using the "Heads & Tails" entry form.

1. Mark either "Heads" or "Tails" or "Evens".
2. Mark how much you want to bet per game.
3. Mark how many consecutive games you want to play.

## WHAT YOU CAN WIN.

The table below shows you examples of the size of the prize in relation to the size of the bet.

### "HEADS & TAILS" PAYOUT TABLES

Tails	\$2.00	\$10.00	\$20.00
